

Membership includes access to a hub of choice, for one year or two depending on the membership term selected and paid for. Members can sub at other hubs if requested and may do a 60-second pitch, so long as there is no clash within the hub. Members are to limit subbing to 6 times per year for all hubs. Members may also have two visits per year to other hubs. This includes face to face meeting and virtual meetings providing there is no clash with existing hub members.

The hub's committee are responsible for processing new applications and consideration will be given to ensure there are no clashes with existing members. If a clash occurs, the committee will discuss this with the member effected. If the clash is genuine the committee will respond accordingly to the applicant and advise the directors of the decision.

The directors will then seek to find an alternate hub for the applicant and notify them accordingly.
